

## Hello GDA Families!

We're already in the 3rd month of dance? Time flies when you're having fun!

<u>Studio Closure:</u> The studio will be closed **Tuesday October 31st**, for Halloween! Be sure to swing by Amazing Grace Fellowships "Treat Street" to see all of the cool trunks and get ALL. THE. CANDY.

<u>Core Value:</u> We have been talking about Kindness inside and outside of the studio the last 2 months and have had some really great conversations! The next 2 months we will be focused on Inclusivity. Inclusion is intentional. It is about removing and identifying barriers so that everyone can participate to the best of their ability. Sometimes the best you can give someone is to include them. I'm so excited for these lessons! Let's all work together on being kind humans who include everyone.

**Technique Focus:** This month's technique focus is Kinesiology - the study of the mechanics of the body. As dancers, we have this amazing body we use in dance and we should be using it to its full potential. That means using the correct muscles for different moves and understanding the kinesphere. The notion of kinesphere was created by Rudolf Laban to define: "the sphere around the body whose periphery can be reached by easily extended limbs without stepping away from that place which is the point of support when standing on one foot". (In other words, straightening arms and legs completely and reaching thru every movement)
